

## **Seminar 2016**

---

### **Genetic and Epigenetic Determinants of Chronic Lymphocytic Leukemia Evolution**

**Dan Avi Landau, MD, PhD**  
Assistant Professor of Medicine,  
Division of Hematology and  
Medical Oncology,  
Department of Medicine & Department  
of Physiology and Biophysics,  
Weill Cornell Medical College.

Cancer progression, relapse and resistance are the result of an evolutionary optimization process. Vast intra-tumoral diversity provides the critical substrate for cancer to evolve and adapt to the selective pressures provided by effective therapy. Thus, understanding intra-tumoral diversity and evolutionary dynamics will be a critical step in the development of effective, curative therapies for cancer.

Please see the [Laufer Center website/seminars](#) for the full abstract.

**Friday April 29, 2016**  
**2:30 PM**  
**Laufer Center Lecture Hall 101**  
**Host: *Sasha Levy***  
Refreshments following seminar
